EDUCATION

The Continuing Education Center of the Institute of Paper Chemistry offers several short courses and symposia which are held on the Institute's campus in Appleton, Wisconsin. Two courses which might be of direct interest to Criminalists are the Fiber Microscopy Course offered July 9-20, 1973, and the Workshop on Species Identification, Sept 5-7, 1973, both taught by I. H. Isenberg. The Institute will also hold a Seminar on "Paper and Its Analysis for Document Examiners", directed by William C. Kreger, on August 27-29, 1973. For further information concerning these and other educational offerings from the Institute, write T. A. Howells, Director of Continuing Education, The Institute of Paper Chemistry, Appleton, Wisconsin 54911.

SEMINAR TAPES

Tapes of the papers presented at the Spring Seminar in San Diego will be made available to interested members upon request. Contact Editorial Secretary George Nakamura for further information.

Institute of Forensic Sciences

I would like to thank the members of the CAC for giving me the privilege of serving as Recording Secretary for the past year. I want especially to thank those members who helped so much by contributing material for the Newsletter. Serving as a member of the Board has been an enriching experience that I will not soon forget.
